1. Management Personnel Knowledge Requirement

- At least one person pass the UL Firestop Exam- (DRI)
- Knowledge of the UL Fire Resistance Directory of UL Listed systems

2. Management System Requirement

- Establish and effectively implement and maintain a **management system** that meets the UL Program Requirements

Why become a UL QFCP?

Independent, 3rd Party Credential that differentiates contractor firm

It is a credential!

- Allows you to bid projects that specify a UL or ULC Qualified Firestop Contractor.
- Allows you to increase efficiencies in operations
- Increase the confidence for your customers and architects, specifiers, manufacturers and general contractors

What are the requirements?

1. Firestop Industry Knowledge
 - Employ at least one Designated Responsible Individual (DRI)
 - Knowledge is demonstrated & assessed through an Exam
 - Must score 80% or better on the UL Firestop Exam
2. Firestop Contractor Management System
 - Establish, effectively implement & maintain a management system that meets UL Qualified Firestop Contractor Program Requirements
 - Assessment of the management system is through
 - Initial and Annual Firestop Contractor Office Audit
 - Firestop project site visit audit site

Value of a management system.

Management system principles provide a framework for how companies operate and result in:

- Consistent and effective control of key processes and project management
- Promotion and standardization of good working practices
- Planned training & qualification of employees
- Enhanced communication, leadership, effective remote site management, accountability, contractual control, and control of suppliers

Development of your management system

Critical key steps

- Identify processes needed
- Determine process sequence and interaction
- Determine effectiveness of processes
- Provide resources to support process operation and monitoring
- Create a Management System Manual to document processes including responsibilities and authorities of key staff
- Maintain control of any outsourced processes that could affect the conformity of selection and installation of firestop systems with requirements.
- Monitor, measure, and analyze to continually improve the processes.

10 Elements of the management system

1. Construction Document Requirements & Review
2. Procurement of Firestop Materials
3. Storage, Handling, Preservation & Delivery of Firestop Materials
4. Installation & Quality Assurance Procedures
5. Inspection & Testing
6. Control of Non-Conforming Materials
7. Training & Qualifying Staff
8. Corrective & Preventive Actions
9. Management System Monitoring & Improvement
10. Documentation & Recording Keeping

What to expect during you audit?

- Complete quality audit at your office
- Job site Audit
