

**FCIA FIRE & SMOKE BARRIER FIRESTOP & EFFECTIVE  
COMPARTMENTATION 'DIIM' SYMPOSIUM DOHA**

**4-6 October 2016**

**THE ORYX ROTANA HOTEL**

**Doha, Qatar**

## 2016 Fire & Smoke Barrier Firestop & Effective Compartmentation 'DIIM' Symposium Doha

### AGENDA AND HOTEL INFORMATION

Firestopping and Effective Compartmentation systems that are properly installed to the tested and listed system specs are universal critical elements of fire- and life-safety.

Total protection begins with good Design, continues with proper Installation, is verified with thorough Inspection and then is completed with regular Maintenance and Management of installed systems. Having and implementing a thorough knowledge of the 'DIIM' of Firestopping and Effective Compartmentation, as well as of Fire Walls, Fire- and Smoke-Rated Barriers and Smoke Partitions, provide greater reliability of installed Firestop Systems for improved Fire- and Life-Safety in buildings.

At the Fire & Smoke Barrier Firestop & Effective Compartmentation 'DIIM' Symposium Doha, honored delegates will attend a varied array of educational sessions focused on each element of the 'DIIM' of Firestopping - Design, Installation, Inspection and Maintenance/Management, as well as a session focused on the codes and standards updates.
