DRAFT AGENDA SUBJECT TO CHANGE As of 6 August 2015

Specifiers, Architects, Building Officials, Fire Marshals, Contractors, Consultants, Manufacturers, Manufacturers Reps, Distributors, Governmental Officials Welcome.

Shakers Room

- 0800 – 0830 **Exhibitor Setup**
- 0830 – 0900 **Coffee, Tabletops Open**
- 0900 – 0915 **Welcome *Bill McHugh, FCIA Executive Director***
- 0915 – 0930 **FCIA & the DIIM – Why does it make sense worldwide?**
Bill McHugh, FCIA Executive Director
- 0930 – 1015 **Design, Testing & Code Requirements – Barriers – Fire Separations**
The Building and fire codes describe Fire Separations test standards, locations, and other physical requirements. Listen as Don Falconer brings the ‘where and why’ of Fire Separations in all types of occupancies.
Don Falconer, Falconer Engineering
- 1015 – 1045 ***Break***
- 1045 – 1130 **Install & Inspect- FM 4991, Standard for the Approval of Firestop Contractors;**
ULC Qualified Firestop Contractor Programs bring quantified qualification of firestop contractor companies and FCIA’s Firestop Education Program provides education for DRI Candidates and workforce. In Firestopping, ASTM E 2174 & ASTM E 2393 Inspection Standards are used. IAS AC 291 Accredited Special Inspection Agencies bring quantified credibility to the inspection company and individual inspectors. Individual inspectors must also pass the FM or UL Firestop Exam. Learn about what’s going on as well as what’s required in these installation company certification programs.
Bill McHugh, FCIA
- 1130 – 1200 **NRC’s Building and Fire Codes**
The National Research Council of Canada manages the building and fire code development process for Canada. Listen as we hear how the code is developed and when we can input FCIA’s thoughts into the code.
Philip Rizcallah, National Research Council of Canada
- 1200 – 1300 **Luncheon**

FCIA DIIM Educational Symposium in Ottawa – 9 September, 2015
“DIIM” – Design, Install, Inspect, Maintain for Life Safety
Brookstreet Hotel, Ottawa, Ontario

Shakers Room

- 1300 – 1320 **Tabletop Exhibitor Presentations, 2 minutes each**
- 1320 – 1430 **National Research Council of Canada – Fire Research Update**
Smoke Control, Firestopping and Egress
The National Research Council of Canada has a long history of expertise when it comes to smoke control and also egress. Dr. Yoon K covers smoke control and Dr. Steve Gwynne, egress from buildings. Don't miss how important it is to protect egress pathways from these world known experts.
Dr. Yoon Ko, National Research Council of Canada
Dr. Steve Gwynne, National Research Council of Canada
- 1430 – 1500 **Break**
- 1500 – 1545 **Canada Healthcare Engineering Society - Firestopping in Existing Buildings**
Buildings seem to be constantly under renovation, change, upgrades and more. After many years of new plumbing, wired and wireless internet, piping for medical gasses, power cables, ductwork, a fire separation gets filled with holes. The existing buildings in Canada may have separations that could let fire spread from space to space that should be protected. Learn about how a building owner and manager might find ways to keep track of firestopping in existing buildings.
TBD....
- 1545 – 1630 **Firestopping Specifications & MasterFormat Sections**
Specifications set the stage for great installation, inspection and maintenance/management. Don't miss this program.
Bill McHugh, FCIA Executive Director and SPECIFIER TBD
- 1630 **Exhibitors dismantle**
Informal Reception – At Bar
